PROFILE

Software Engineering undergraduate with 3+ years of hands-on development experience in Full Stack web applications and cross-platform mobile development. Proven track record of delivering enterprise-level solutions using MERN stack, Java, and mobile technologies. Experienced in agile development, client collaboration, and leading technical initiatives for national-level organizations.

EDUCATION

BSc (Hons) in Information Technology — Specializing in Software Engineering

Faculty of Computing, SLIIT — 2023–Present

G.C.E Advanced Level (Maths Stream) — 2022 (2023)

Richmond College Galle

PROJECT HIGHLIGHTS

SLSBA Website — MERN Stack

Developed a full-stack platform for tournament and finance management for the Sri Lanka Schools Badminton Association. Included secure login, registration handling, admin dashboards, and payment tracking.

Live Cricket Scoring System (Android + iOS) — Kotlin, Swift, Firebase

Developed a cross-platform live scoring solution for cricket matches. The Android app (Kotlin) enabled match creation, player selection, and real-time score input, while the iOS viewer app (Swift) displayed live scores, overs, and player stats with Firebase synchronization.

Magnate Analysis System — Next.js, TypeScript, TanStack Table, Claude API
B2B procurement platform for marine supply with RFQ workflow, vendor management, PDF generation, and an analytics dashboard. Integrated Claude API for intelligent processing.

WorkoutPro — Next.js, TypeScript, MongoDB, Turborepo, Zod, Claude API
Full-stack fitness platform in a monorepo — Next.js dashboard backed by a NestJS REST API with JWT auth, scheduled reminders, web push notifications, and AI-generated training plans via Claude API.

Smart Healthcare — Node.js, TypeScript, React, MongoDB, PostgreSQL, RabbitMQ, Docker, Kubernetes
Production microservices telemedicine platform. Built Doctor Service, Appointment Service, and Admin APIs.

EXPERIENCE

- Intern Software Engineer (2025 – 2026) – London Stock Exchange Group (LSEG)
- Lead Full Stack Developer - ScaleX
- Social Media & Technical Manager — Sri Lanka Schools Badminton Association (2022 – 2024)(Lead tech coordination during national-level badminton events.)
- Live Production Team Member — Richmond College Galle (2019 – Present) (Social media content and handled live production for school events.)
